

Corjl Quick Guide Instructions

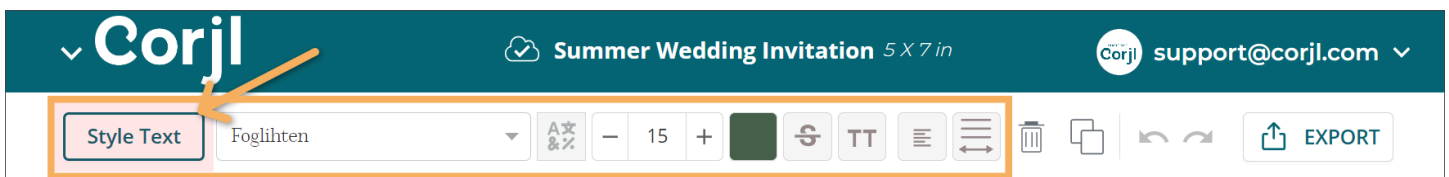

Editing Text

Add Text Box – To add a new text box (if available), click on the **Text** button in the Left Menu. Hover over the font you want to add to the canvas and the **Add Text to Canvas** button will appear. Click to add that text.

Style Text – Select a text box and then click the **Style Text** button that appears in the top left corner.

Format Text – Select fonts, change font size and text color, and format text with options in the top toolbar.

Editing Images

Style Images – Select an image and then click the **Style Image** button that appears in the top left corner.

Replace Image – Select an image and then click the **Replace Image** button found in the top left corner.
